

A2  
Cmcd. by one skilled in the art while still remaining within the spirit and scope of the invention which is to be defined only by the appended claims.

In the Claims:

Please ~~rewrite~~ claim 29 as shown.

A3 29. (Amended) A structure according to claim 18 comprising entities relating to editorial requirements and entities relating to instantiation requirements.

REMARKS

The above amendments are being made to place this application in better form under U.S. practice, and in particular to eliminate multiple dependent claims. Entry of these amendments is respectfully requested.

Respectfully submitted,

*David Chan, et al., Applicants*

**MARKED-UP CLAIMS**

29. (Amended) A structure according to [any of claims] claim 18 [to 28] comprising entities relating to editorial requirements and entities relating to instantiation requirements.

2025-03-10 09:00:00

**MARKED-UP SPECIFICATION**

Please replace the paragraph beginning at line 25 of page 28 as shown.

The data structure is typically implemented in software, for example the data dictionary may be held in a software repository. However, this is not a limitation on the invention and the data structure may, in appropriate cases, be implemented in hardware or in a hardware/software hybrid.

Please add the following paragraph at the end of page 28.

While the invention has been particularly shown and described above with reference to a preferred embodiment, the foregoing and other changes in form and detail may be made therein by one skilled in the art while still remaining within the spirit and scope of the invention which is to be defined only by the appended claims.
